SITUATION SUMMARY

Hoopa Valley Tribe Water Shortage

- On 06/27/15 at 1325 hours the California State Warning Center was advised by the Cal OES Tribal Liaison Duty Officer (TLDO) that the Hoopa Valley Tribe, Humboldt County, was requesting a 2-3 day supply of bottled drinking water for approximately 150 people. The request was increased to a confirmed final total of 300 individuals for 3 days.
- Per CDO as of 06/27/15 at 1637 hours:
 - Hoopa has had several recent arson fires that have depleted the water supply, and also there is debris that is clogging the intake valve to the water treatment plant.
 - The tribe is working with a local store near tribal land to get water, though there is not much.
 - The County does not have access to water, though they are contacting local stores to see what they may be able to provide, though the tribe would have to drive 1+ hours to the urban area. They do have a truck they can use to haul some water.
- The Hoopa Valley Fire Chief, Rod Mendez advised the TLDO that a Mandatory Water Conservation Order was issued to all Hoopa Valley Residents due to depleted reserves which caused extreme water shortages in the Hoopa Valley.
- Per Humboldt County as of 06/27/15 at 1656 hours, the request is now for approximately 300 individuals for an unspecified time.
- A conference call was held between Cal OES, Humboldt County, Red Cross, and the Hoopa Valley Tribe at 1730 hours.
 - American Red Cross has secured 3 liters (1 gallon) of drinking water per person for 3 days (approximately 4 pallets) which will arrive this evening from Alameda.
 - Different methods of funding and supply are being examined in the event that the Tribe will require more water after 3 days.
 - The Tribe will work to clear the water treatment plant intakes and observe to see if the tanks will fill.
 - The Tribe is requesting that the water be delivered to The Hoopa Wildland Fire Center. They will distribute the water. They have no other requests at this time.
- Cal OES Duty Officers are gathering information and providing updates as they become available.

SITUATION SUMMARY

2015-Coastal-13668, Contra Costa County

- Mission number 2015-Coastal-13668 for the Department of Water Resources (DWR) was opened for flood control resources to protect the existing low points in the levee, due to anticipated summer tide levels rising at RD2059 (Bradford Island).
- Mission number 2015-Coastal-13668 has been cancelled after discussions between the Cal OES Executive Duty Officer and DWR Representatives determined that the work was within DWR's purview and a mission was not warranted.
- DWR, the RD, and the County will continue to coordinate the necessary work.

San Francisco Pride Weekend, San Francisco

The San Francisco Pride Celebration and Parade will take place this weekend. Several events are scheduled throughout the weekend.

Sunday, 06/28/15

SF EOC will be partially activated on Sunday from 0800 to 2000 to and Cal OES staff will be present:

1. Ensure a safe and secure event for SF Pride Parade & Celebration participants.
 2. Proactively monitor the use and availability of EMS and law enforcement assets.
 3. Monitor the situation and take proactive steps to mitigate potential hazards or threats.
- Sunday Parade & Celebration, 1030 to 1830 hours. The Parade begins at Beale at 1030, travels along Market, and ends at Market & 8th by 1500. On Sunday, Civic Center Celebration time is from 1100 to 1830. Anticipated attendance: 500,000.

Toyota/SaveMart 350 NASCAR race at Sonoma Raceway

- Races are Saturday 06/27/15 and Sunday 06/28/15. The main event will be the 110-lap Toyota/Save Mart 350, which will be held Sunday. Former California Gov. Arnold Schwarzenegger will drive the pace car to kick off the race.
- Crowd size estimated for 50,000+ on Saturday and 100,000+ on Sunday as the races formally take place. Traffic is expected to slow to a crawl along the roads leading to the racetrack south of Sonoma, off Highway 121 just north of its intersection with Highway 37.
- Sonoma Raceway has worked closely with the CHP and Caltrans to develop and execute the traffic management plan, which will use more than 30 CHP and Caltrans workers on race day. Sonoma Raceway has been spreading the word about the alternative routes and a traffic management plan has been developed, which included distributing 46 message signs along roads within a 15-mile radius around the track and hiring a traffic manager to work closely with CHP officers.
- There are no road closures, EOC openings or requests for state resources.

SITUATION SUMMARY

Train Derailment, Bloomington, San Bernardino County

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Hot and dry conditions have primed fuels for enhanced fire danger can be expected this weekend through much of Northern California and the Sierra Nevada's.
- Initially dry mountain thunderstorms with lightning and gusty winds could cause fire starts and quick spread.
- Increasing moisture with storms could cause debris flows near burn scars as the weekend progresses.

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

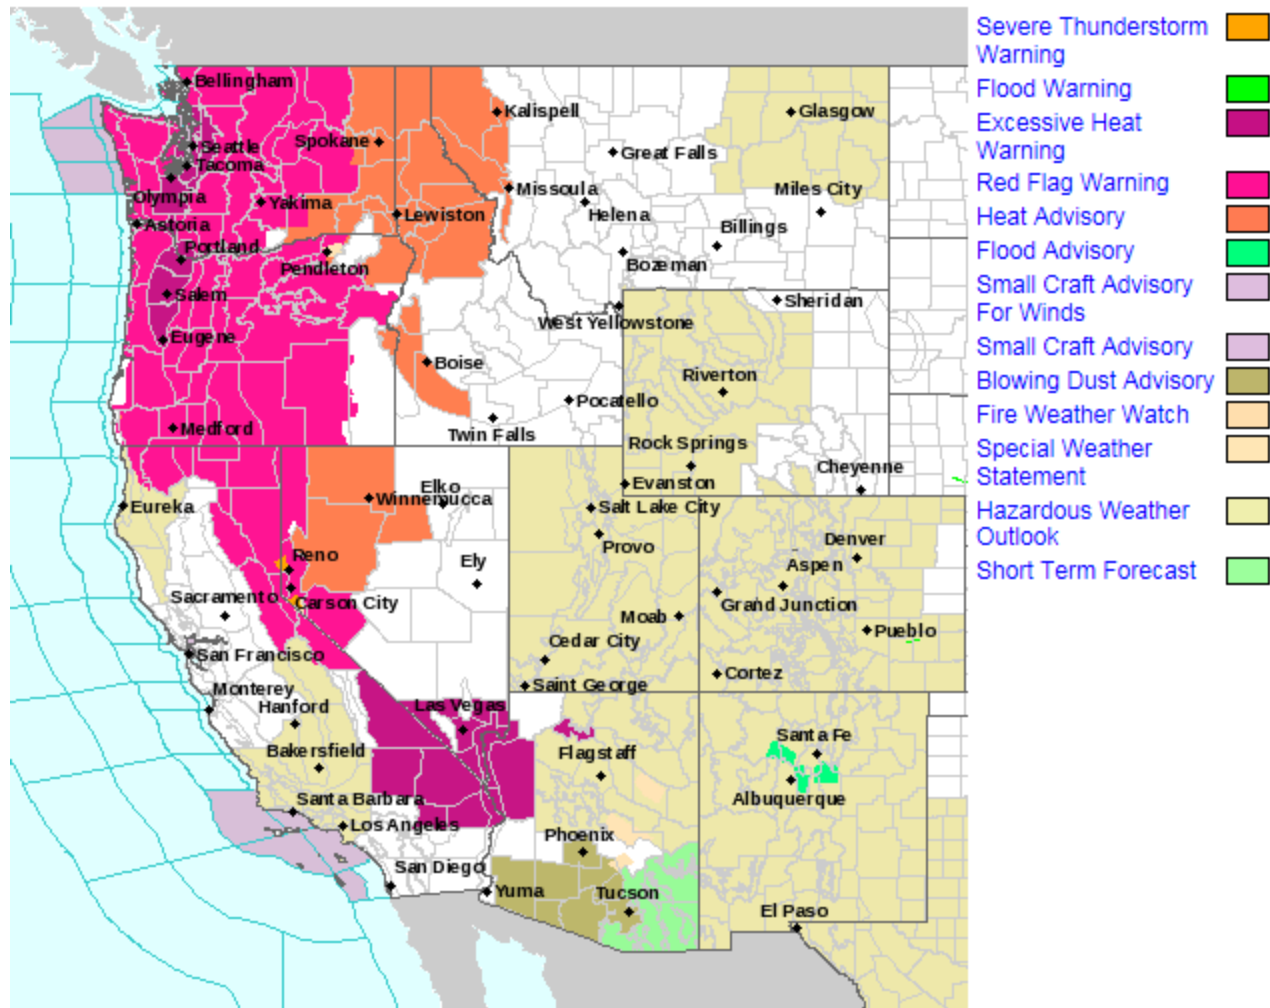

NORTHERN CALIFORNIA

Strong high pressure is over the Great Basin and Desert Southwest and an area of low pressure is offshore. This pattern has produced a south to southeast flow aloft over California that is pulling limited tropical moisture northward and destabilizing the air mass. About 70 lightning strikes occurred in the past 24 hours, mostly dry. Isolated to scattered thunderstorms are expected to develop over the higher terrain again both today and tomorrow. These storms will produce little to no rainfall. With hot and dry surface conditions and dry fuels in place ignition efficiency is expected to be very good. Beginning Monday some drier air works into the region, with a brief respite from the lightning. However, the weather will also be getting hotter and drier with temperatures again about 10-15 degrees above normal. Then another round of moisture returns from the southeast, according to the latest computer models. Confidence is a bit lower on timing and location of this next round of lightning middle to end of next week.

SOUTHERN CALIFORNIA

Southeast flow aloft around a high pressure area centered over the Great Basin will bring isolated mainly dry afternoon thunderstorms to the Sierra today. More moisture will get entrained in the flow starting Sunday bringing scattered mainly wet afternoon thunderstorms to both the Sierra and the mountains and deserts of Southern California east of the Cajon Pass through the end of next week. There will be little change in temperature today, with 80s to low 90s in the mountains and mid-90s to 105 in the valleys. Temperatures will cool a few degrees to the upper 70s and 80s in the mountains and 90s to 102 in the valleys Sunday through the end of next week. Minimum humidity will be mainly between 12% and 25% away from the coastal areas today and then increase to 20% to 40% Sunday through the end of next week. There will be strong and erratic winds associated with any thunderstorm; otherwise winds will be fairly light through the end of next week.
